

# WESTERN PACIFIC METALWORKS | RESUME

---

We are a company with expertise, equipment, and resources to focus on the project success of our clients.

Locally owned, Western Pacific Metalworks has operated in Terrace and the surrounding area since 1981. Our technical experience in the installation and maintenance of sawmill process equipment, has been essential in the success of construction projects throughout the region. Our extensive background in the forestry industry has been adapted to projects in the mining sector and the oil, gas & energy industry.

We can be depended on to fully meet and satisfy all your welding and fabrication needs — large or small, conventional or unique. We are continuously improving and enjoy challenging projects which help expand and support the northwest.

Western Pacific Metalworks maintains a fully equipped fleet of mobile equipment including service trucks, manlifts, and forklifts as well as a 7200 ft2 shop capable of comfortably accommodating 3 sections of Super-B transport trailers. The entire facility is serviceable by bridge-trolley overhead cranes and equipped with the up-to-date CNC machinery necessary for complex metal fabrication. Our team has designed built, repaired, and serviced all aspect of aluminum, steel, and stainless steel equipment and machinery including: transport trailers, heavy-duty logging equipment, mining equipment, truck utility boxes, and boats.

Specialized project services are available to ensure your sites mechanical and millwrighting installations and crews are managed properly to ensure a successful startup.

Western Pacific Metalwork’s has the necessary knowledge, experience, and equipment to ensure any project we are a part of is done properly, efficiently and safely.

**OIL, GAS & ENERGY**

We have been servicing the northwestern fuel distribution terminals for the past 10 years and are very familiar with all aspects of oil and gas systems.

*Services:* pressure vessels, pipe welding and fabrication, mechanical and instrumentation components, valve installation and servicing, major maintenance, shutdowns, integration and commissioning.

*Clients include:* BC Hydro, Pacific Northern Gas, Suncor Energy, Husky Energy, Imperial Oil, Veresen, Vallard, and Allteck.

**MINING**

From fabrication and startup, to equipment optimization and configuration, our expertise in the forestry industry and material handling aligns with the many components associated with material distribution involving conveyors, feeders, crushers, stackers, and reclaimers.

*Services:* specialized mechanical optimization, millwrighting, fabrication of explosion boxes, custom service boxes, off-site equipment fabrication,

*Clients include:* El Dorado Gold, Huckleberry Mines Ltd, Ridley Terminals, Whitebear Industries, Skeena Concrete, Burnco, and African Minerals

**FORESTRY**

As prime mechanical contractor for numerous mill sites we have extensive experience in the design, fabrication, installation and optimization of sawmilling infrastructure including feed decks, board dealers, trimmers, stackers, planers and kilns.

*Services:* equipment fabrication, major maintenance, integration and commissioning.

*Clients include:* Sawmill Equipment Company, LaCrete Sawmills, Canfor, Bear Creek Contracting, and Skeena Sawmills

SHOP

- Machining, Welding & Fabrication in Steel, Stainless Steel, Aluminum, and Composite Materials
- Fabrication & Installation of Pressure Piping (ASME Certified)
- Fabrication of Structural Steel Components & Building Infrastructure
- Mig and Tig Welding
- Heavy Equipment Repairs & Fabrication
- Marine Projects

SITE

- Welding & Labour Crews for Shutdowns
- Maintenance, Welding & Fabrication
- Greenfield & Brownfield Construction & Equipment Integration
- Mechanical & Millwrighting Installations
- Heavy Equipment Repairs & Fabrication
- Bridge Welding & Servicing
- Service Trucks
- Manlift Rentals

FACILITIES | EQUIPMENT

PRIMARY SHOP (6000 FT2)

- 4 Fully Equipped Service Bays
- 3-Ton Bridge-Trolley Overhead Crane
- 5-Ton Bridge-Trolley Overhead Crane
- 250-Ton x 12' Break & 50-Ton Break
- 1/16" to 3/8" x 13' Shear
- 5' x 20' Optical Line Cutter
- 1/16" to 1" x 6" Iron Worker

MACHINE SHOP (1200 FT2)

- 20" x 10' McDougal Lathe
- 42" x 12' Cincinnati Lathe
- 48" Radial-Arm Drill Press
- 16" x 30" Milling Machine
- 3/16" to 1-1/4" Bore x 8" Key cutter (Stationary & Portable)
- 1-1/4" -to 7-1/4" Portable Line Borer

MANLIFTS

- 40' JLG Articulated (2000)
- 45' JLG Articulated Boom (2002)
- 40' JLG Boom Lift (1998)
- 26' x 8' Flat-Deck Trailer (Transport)
